

The University of Texas at Austin

College of Natural Sciences

Department of Computer Science

Recognizes that

Jorge Rivero

has completed all the requirements for the

Elements of Computing Program

Awarded in recognition of significant knowledge and proficiency in computing

June 1, 2020

Dr. Don Fussell, Department Chair
Computer Science

The University of Texas at Austin
Computer Science

June 1, 2020

Jorge Rivero

Computer Science has become the enabling science of our age. It is the engine that drives innovation and discovery in science, engineering, medicine, business, and national defense and will soon transform arts, humanities and the social sciences.

The University of Texas at Austin Department of Computer Science repeatedly ranks as a top-ten computer science program in the United States, and our faculty have garnered multiple awards in their field and hold leadership roles in computer science education at national and international levels. The Elements of Computing Program offers a set of courses intended to help students understand the sophisticated technologies they use everyday as well as gain the computer skills that employers value. An 18-hour certification requires completion of six courses with passing grades.

This letter certifies that Jorge Rivero fulfilled certification requirements of the Elements of Computing Program from the Department of Computer Science at The University of Texas at Austin, by completing the following courses:

Course - Name
CS 303E: Elements of Computers and Programming
CS 313E: Elements of Software Design
CS 329E: Elements of Software Engineering
CS 329E: Elements of Mobile Computing
CS 329E: Elements of Web Programming
CS 329E: Elements of Data Analytics

To learn more about the program, please visit the [Elements of Computing website](#).

Sincerely,

Dr. Don Fussell, Department Chair
